EDUCATION

University of Engineering and Technology, Lahore

Bachelor of Science in Computer Science

– CGPA: 3.274/4

Sep 2023 - Present

Lahore, Pakistan

EXPERIENCE

Full Stack Developer (ASP.NET C#, SQL, DevExpress)

Promtech

Oct 2025 – Present

Hybrid, Pakistan

- Developed HR & Payroll system with redesigned database (attendance, leave, payroll, and employee lifecycle)
- Developed Fixed Assets system with lifecycle management and accounting integration
- Migrated **1200+ employee records** and **4 years of historical data** from **3 legacy databases** into a newly designed database structure, ensuring data consistency and integrity with new database and system
- Developed Performance Appraisal module and contributed to system performance and scalability improvements

Intern

Promtech

Jul 2025 – Sep 2025

Lahore, Pakistan

- Developed 25+ SQL-based HR & Payroll reports using stored procedures for accurate data handling
- Built reporting interfaces (master-detail and listing views) for improved data accessibility
- Redesigned payroll database schema to support configurable earnings and deductions
- Developed core HR data models for attendance, leave, hiring, and employee lifecycle

Freelance Developer

May 2024 – Present

- Completed 30+ projects involving full-stack development, frontend fixes, code reviews, and API integrations
- Worked on a SOLID-based healthcare system implementing ACP-based access control and resolving issues in permissions, caching, and API/frontend synchronization
- Fixed CRM email API caching issue to ensure consistency between real-time data and cached responses
- Worked on Romoconnect, a unified inbox, implementing subscription and payment gateway integrations

PROJECTS

KiteDB

Lightweight NoSQL DBMS

Mar 2025 – May 2025

- NoSQL database system supporting JSON document storage with indexing, persistence layer, and custom query processing engine for structured data retrieval
- Core DBMS features including atomic transactions (WAL), access control, and optimized query execution with focus on reliability, consistency, and performance

Xzamine

Browser Extension — Legal Content Checker

Mar 2025 – May 2025

- Browser extension for X (formerly Twitter) content compliance analysis based on PECA-2016 using Flask backend with AI-based processing pipeline
- Integrated LLM-based analysis system to evaluate content and generate structured compliance reports for users

GrabEats Senior Helper

AI-Powered Food Recommendation App — Streamlit, Gemini API

Apr 2026 – Apr 2026

- AI-powered recommendation system with multilingual support and dietary-aware food suggestions using Google Gemini API
- PDF menu extraction using OCR with SQLite-based storage and accessibility-focused UI optimized for senior users

POS System

Billing & Management System — C#, .NET, SQL

Oct 2024 – Dec 2024

- POS system with WinForms and console interfaces supporting role-based access for Admin, Employees, and Customers
- Handled product, user, and employee management with SQL-based transaction and data operations

SKILLS

Languages & Databases: C#, JavaScript, TypeScript, Python, SQL, T-SQL, SQL Server, MongoDB, Supabase, SQLite

Tools & Technologies: ASP.NET Core, ASP.NET MVC, Node.js, Express.js, React.js, Flask, Streamlit, HTML, CSS, Bootstrap, Tailwind CSS, Git, GitHub, SSMS, Postman, DevExpress
